WHO WE ARE

رؤية
VISION
2030
المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

Founded in 2011, Ingress Group began its journey as a contracting company and has since evolved into a diversified service provider within the Kingdom of Saudi Arabia.

Throughout the years, we have built a strong presence across various sectors, including—but not limited to—industrial maintenance and repair, inspection services, civil construction, telecommunications, MEP (Mechanical, Electrical, and Plumbing), security systems (CCTV), and low current systems.

Mission Statement

At Ingress Group, our mission is to grow with purpose, building a solid reputation through reliable work, strong partnerships, and a commitment to continuous improvement. As a proud Saudi company, we aim to contribute to the Kingdom's evolving landscape by:

- Delivering dependable, high-quality services across the sectors we serve.
- Supporting local talent and creating real opportunities for the next generation.
- Expanding responsibly while staying grounded in our values & community.
- Aligning our growth with the spirit of Vision 2030—innovation, resilience, & national progress.
- Industrial Inspection & Maintenance
- Commercial & Residential Fit Outs
- Civil Work
- Telecommunications Services
- Logistics Services
- Low Current Works
- MEP Works
- Facility Management & Maintenance
- Stone Surfaces Division

We believe that steady, honest work lays the foundation for long-term success. Our goal is to become a trusted name in our industry, known not just for what we do—but how we do it.

Our skills

are the main reasons why clients choose us

Technical Proficiency

We bring deep expertise across multiple disciplines, from industrial maintenance to telecom and civil engineering.

Safety & Quality

We believe that safe working conditions and quality are the pillars of a successful projects. That is why it is the core of everything that we do. We never compromise, no matter the challenge.

Commitment to Quality

Every project reflects our dedication to superior workmanship, strict standards, and attention to detail.

Client-Centric Approach

We prioritize our clients' goals by offering personalized services tailored to their specific needs and expectations.

OUR Clients

Our work creates trust in our customer's minds, and this is achieved by hard work, dedication and transparency.

OUR Services

We're Here to Partner With You Through Exceptional Professional Services

At Ingress Group, we take pride in offering a wide range of tailored services designed to meet your evolving industrial, commercial, and residential needs. With a strong foundation built on safety, quality, and innovation, we are committed to delivering seamless, reliable solutions that drive long-term value.

Industrial Inspection & Maintenance

Rope Access. Total Assurance. We specialize in advanced industrial inspection and maintenance services that ensure operational efficiency and regulatory compliance. Our smart access techniques minimize downtime while maximizing safety and performance, delivering complete turnkey solutions tailored to your facility.

Telecommunications Services

Powering the Next Generation of Connectivity, We enable cutting-edge telecommunication solutions by deploying infrastructure for 5G and beyond. Our experts manage complex projects from fiber optics to tower installations, ensuring fast, secure, and future-ready communications networks.

MEP Works

Integrated Mechanical, Electrical, and Plumbing Solutions Our MEP department delivers expert design, installation, and maintenance of core building systems. With a commitment to technical excellence and project efficiency, we help you create sustainable and high-performance environments.

Commercial & Residential Fit Outs

Transforming Spaces with Precision and Style Whether it's a house or a high-end apartment, a corporate office, or a retail environment, we bring your vision to life through expert fit-out services. Our team ensures smooth execution, premium materials, and minimal disruption, making every space both functional and aesthetically impressive.

OUR Services

Logistics Services

Where Efficiency Meets Safety Our logistics division offers streamlined, end-to-end services with a steadfast focus on safety, reliability, and comfort. From transport coordination to warehousing, we ensure that your goods are handled with care and precision at every step.

Facility Management & Maintenance

Reliable. Responsive. Resourceful. We offer comprehensive facility management services tailored to optimize operations, extend asset life, and reduce operational costs. Our services include preventive maintenance, energy management, and daily upkeep for a hassle-free environment.

Low Current Works

Smart Systems. Seamless Integration. Our low current systems are designed for the future of smart living and intelligent operations. From access control to building automation and security systems, we integrate technology that enhances convenience, control, and safety.

Civil Work

From Groundbreaking to Completion – We’ve Got You Covered We handle the full lifecycle of civil engineering works, from earthworks and foundations to roadworks and structural solutions. Our team delivers dependable, scalable infrastructure projects that stand the test of time and terrain.

Stone Surfaces Division

Elegance in Every Detail, Crafted by Ingress Group Our Stone Surfaces Division brings timeless beauty to your interiors and exteriors. From marble countertops to custom-cut stonework, we offer precision craftsmanship and premium finishes to elevate any space.

01 Industrial Inspection & Maintenance

Industrial Services – Rope Access. Complete Solutions.

At Ingress Group, we deliver expert industrial services designed to maximize uptime, ensure safety, and reduce operational costs. Our capabilities extend across a wide range of industries, offering specialized solutions for complex environments - executed with speed, precision, and professionalism without compromising safety and quality.

We are proud to operate with an IRATA-certified rope access team, enabling us to perform high-level and confined space tasks without the need for traditional scaffolding. This innovative approach allows us to complete work faster, safer, and more cost-effectively, especially in hard-to-reach or hazardous areas.

Our industrial services include:

- Mechanical repairs and equipment overhauls
- Preventive and corrective maintenance
- Waterproofing and protective coatings
- Non-Destructive Testing (NDT) and inspections
- Shutdown and turnaround support
- High-access cleaning, sealing, and structural repairs
- Industrial rescue support and standby rescue teams
- Welding
- Painting
- Installation
- Assembly

02 Commercial & Residential Fit Outs

Expert Commercial & Residential Fit Outs
for Homes & Apartments, Offices & Retail
Spaces

We specialize in high-quality fit outs for commercial and residential properties, transforming homes & apartments, offices, and retail shops into functional, stylish, and efficient spaces. With a focus on detail, innovation, and seamless project delivery, we bring your vision to life—on time and within budget. Whether you're looking to refresh an interior or undertake a complete transformation, our experienced team delivers tailored solutions that elevate every environment.

Our dedicated in-house carpentry team brings craftsmanship, consistency, and efficiency under one roof. From custom joinery to precision woodworks, we ensure every detail is built to perfection — with no outsourcing, no delays, and total quality control. Whether it's bespoke furniture, fit-outs, or structural elements, our skilled artisans deliver results that reflect our commitment to excellence.

03 Continued Civil Work

Our capabilities span the full lifecycle of civil works

At Ingress Group, we provide a comprehensive portfolio of civil construction services tailored to support residential, commercial, and industrial development projects. Our capabilities span the full lifecycle of civil works—from site preparation and infrastructure development to structural execution and finishing—delivered with the highest standards of safety, quality, and efficiency.

Our team of experienced engineers and construction professionals is dedicated to completing every civil work project on schedule and within budget, while maintaining strict adherence to safety protocols. We utilize the latest technologies and best practices to ensure the integrity and durability of all our work. From the initial design phase to project completion, we provide reliable and innovative solutions that help bring your vision to life. Whether working on a small-scale residential project or a large commercial development, Ingress Group is your trusted partner for exceptional civil work services that lay the foundation for future success.

Our Civil Services Include:

- Site clearing, grading, and earthworks
- Road and pavement construction
- Stormwater drainage and utility networks
- Concrete works and foundation systems
- Industrial civil works for warehouses and logistics centers
- Erection of steel structures and prefabricated buildings
- Specialized waterproofing solutions for roofs, basements, and wet areas

03 Continued Civil Work

Our capabilities span the full lifecycle of civil works

We work closely with our clients to understand specific technical requirements and project objectives, ensuring solutions that are robust, cost-effective, and compliant with all regulatory standards. Whether it's developing infrastructure for a residential compound or executing heavy-duty industrial civil works, Ingress Group is equipped to deliver with precision.

Our Industrial Expertise

With proven experience in the industrial sector, we support the development of:

- Storage and distribution warehouses
- Steel-framed buildings and sheds
- Service yards and access roads
- Substructure protection and waterproofing systems

03 Continued Civil Work

Our capabilities span the full lifecycle of civil works

We partner closely with clients to deliver robust, cost-effective solutions tailored to technical and regulatory requirements. From residential infrastructure to large-scale industrial civil works, Ingress Group ensures precision and performance at every stage.

Our Industrial Capabilities

- Storage & distribution warehouses
- Steel structures & sheds
- Access roads & service yards
- Waterproofing & substructure protection

Why Choose Ingress Group?

- End-to-End Delivery – From design to handover
- Expert Engineering – Multidisciplinary, certified team
- On-Time, On-Budget – Reliable project execution
- Strict HSE Compliance – Safety-first culture
- Smart Solutions – Modern tech & durable materials

04 Telecommunications Services

Telecommunications Contracting – Enabling the 5G Infrastructure

At Ingress Group, we take pride in being one of the pioneering telecommunications contractors supporting the Kingdom's transformation toward 5G connectivity. With a strong track record in delivering critical telecom infrastructure, we have played a key role in building and upgrading networks that meet the demands of next-generation communication systems.

Our scope of work includes the construction, installation, testing, and commissioning of a wide range of telecom infrastructure such as fiber optic networks, 5G towers, data transmission systems, and structured cabling. We specialize in executing telecom projects for leading operators, public authorities, and private developers—ensuring every solution is built with precision, scalability, and long-term performance in mind.

From greenfield deployments to network expansions and upgrades, our experienced team ensures compliance with the latest industry standards and safety protocols while delivering projects on time and within budget.

With Ingress Group, clients gain a reliable partner capable of executing complex telecom infrastructure projects that support the rapid growth of digital services and smart city development across the Kingdom.

05 Logistics Services

With a strong commitment to safety and comfort.

Where Efficiency Meets Safety

At Ingress Group, we provide end-to-end logistics solutions that streamline your operations while prioritizing safety, reliability, and precision. From seamless transport coordination to advanced warehousing, our logistics division is built to support your business every step of the way. Our warehousing facilities are secure, scalable, and strategically managed to ensure optimal inventory control and accessibility. Whether you require short-term storage or long-term distribution support, we offer flexible solutions tailored to your supply chain needs.

Every aspect—from inbound shipments to final delivery—is handled with care, guided by advanced tracking systems, skilled personnel, and strict quality standards. We help reduce downtime, minimize risks, and keep your goods moving efficiently.

Our Core Services Include:

- Smart transport planning and fleet coordination
- Secure, temperature-controlled warehousing and storage
- Real-time inventory management and tracking
- Last-mile delivery with full transparency
- Specialized handling for fragile, high-value, or regulated goods

With Ingress Group, you gain a trusted logistics partner committed to speed, safety, and service excellence.

06 Low Current Works

Low Current Works – Smart Systems, Seamless Integration

At **Ingress Group**, we specialize in delivering advanced low current systems tailored for residential, commercial, and industrial environments. Our expertise covers the design, installation, integration, and maintenance of intelligent low voltage solutions that enhance safety, connectivity, and operational efficiency.

Our scope includes:

- Structured cabling and data networks
- Fire alarm and detection systems
- Access control and CCTV
- Intercom and public address systems
- Audio-visual solutions and smart building technologies
- Solar Panel installation and integration

Each system is engineered to meet the specific needs of the project while ensuring full compliance with international standards for performance, reliability, and safety. Our certified engineers and technicians bring deep technical expertise and meticulous attention to detail across all stages of execution—from planning and design to final commissioning.

At **Ingress Group**, we focus on building future-ready infrastructures that integrate seamlessly with evolving technologies. Whether it's a standalone system or part of a broader MEP package, we deliver solutions that are scalable, secure, and built to perform.

07 MEP Works

Mechanical, Electrical, and Plumbing (MEP) Department

At Ingress Group, our Mechanical, Electrical, and Plumbing (MEP) Department plays a pivotal role in delivering fully integrated building services that are essential for modern infrastructure. We specialize in the end-to-end execution of MEP systems across a diverse range of sectors including commercial, industrial, residential, and mixed-use developments. Our team of experienced engineers and certified technicians ensures the design, installation, testing, and commissioning of all MEP systems are carried out to the highest international standards. Our approach combines technical precision, regulatory compliance, and energy efficiency, resulting in solutions that are both sustainable and cost-effective.

Our Core MEP Services Include:

- **Electrical Systems:** MV/LV networks, street & tunnel lighting, internal power distribution, emergency and backup systems, grounding & lightning protection.
- **Mechanical Systems:** HVAC systems, ventilation, smoke management, chilled & condenser water piping, and energy management solutions.
- **Plumbing & Firefighting Systems:** Water supply networks, drainage and sewerage systems, fire suppression systems, and pump room installation.
- **Integrated Systems:** Building management systems (BMS), MEP coordination using BIM, sustainable system design and value engineering.

08 Facility Management & Maintenance

We provide comprehensive Facility Management Services.

Facility Management & Maintenance

Reliable. Responsive. Resourceful.

Ingress Group offers complete Facility Management & Maintenance solutions that keep your buildings running at peak performance while ensuring safety, comfort, and cost efficiency. We take a holistic approach, delivering both hard and soft services tailored to your operational needs and facility type.

Our hard services focus on the technical and infrastructure-related aspects of your facility—ensuring all mechanical, electrical, and plumbing (MEP) systems are maintained to the highest standards. From HVAC servicing to power systems and structural upkeep, we implement preventive and corrective strategies that extend asset lifespan and minimize breakdowns.

08 Continued Facility Management & Maintenance

We provide comprehensive Facility Management Services.

Complementing this, our soft services enhance the everyday experience for your tenants, visitors, and staff. These include cleaning, landscaping, pest control, and front-of-house services—executed with attention to detail and a strong focus on hygiene, presentation, and user satisfaction.

Our Key Facility Management Services Include:

- Hard Services:
- MEP system maintenance
- HVAC servicing and repairs
- Fire safety systems management
- Building fabric maintenance
- Soft Services:
- Housekeeping and janitorial services
- Landscaping and pest control
- Waste management
- Concierge and reception services
- Energy management and sustainability planning
- 24/7 helpdesk and emergency response
- Asset tracking, lifecycle planning, and compliance auditing

With Ingress Group, you get a dependable partner who manages your facilities with professionalism and precision—freeing you to focus on your core business.

09 Stone Surfaces Division

Stone Surfaces Division – Crafted Elegance by Ingress Group

At Ingress Group, our Stone Surfaces Division specializes in providing a refined selection of premium quartz, engineered marble, semi-precious stones, and terrazzo surfaces—designed to elevate interior and architectural spaces with unmatched elegance and performance.

We source and deliver only the finest materials, offering a diverse portfolio of colors, patterns, and finishes tailored to the needs of residential, commercial, and luxury hospitality projects. From countertops and flooring to feature walls and bespoke design elements, our products combine sophisticated aesthetics with superior durability.

Our dedicated team works in close collaboration with architects, interior designers, and project consultants, providing end-to-end support—from product selection and customization to logistics and technical assistance. With a deep commitment to quality, innovation, and client satisfaction, Ingress Group is your trusted partner for high-performance decorative surfaces that embody both style and substance.

Ingress Stone Surfaces – Where design meets distinction.

OUR Projects

We offer a comprehensive range of integrated services that support the growth, efficiency, and safety of operations across various sectors in the Kingdom of Saudi Arabia. Our team of professionals combines industry expertise with innovative technologies to deliver dependable and high-quality solutions.

FM: Complete conditioning and maintenance of the exterior of HQ

Provision of Specialized Manpower

Provision of Facility Management and Custodial Services
